The background of the image features several light-colored wooden spoons of various sizes, some overlapping each other. A piece of fabric with a grey and white checkered pattern is draped across the scene, partially covering the spoons. The overall aesthetic is clean and natural, suggesting a focus on hands-on learning or craftsmanship.

At Hideaway Lane, we provide a great opportunity for progressive schools to offer unique artisan sessions for their students. Small groups work together in an engaging environment to produce healthy and tasty fare or personalised soaps/candles . Not only do students benefit in a practical way by gaining life skills, they also share valuable experiences in working collaboratively, creative design, time management, and problem solving.
